Argos 'Ask Trevor' Evaluation Report

Scenario: TC-ARG-019 (tc_arg_019_multi_turn_headphones)

Persona: Multi-Turn Contextual Dialogue

Objective: Multi-turn inquiry starting with over-ear headphones, refining to ANC under £100, then comparing battery life.

Execution: 2026-10-13 23:26:26 -> 2026-10-13 23:27:47

Total Turns: 4

Execution Video: execution_video.mp4

OVERALL VERDICT: PASS

Judging & Criteria Evaluation:

[PASS] **Retains context of previous turn recommendations**

Reasoning: Turn 2 correctly filters from the Turn 1 product list, identifying only ANC models under £100. Turn 3 compares the two Sony models discussed in Turn 2. Turn 4 addresses warranty and delivery for the CH720N mentioned throughout the conversation. Context is maintained across all turns.

[PASS] **Applies ANC and price filters correctly**

Reasoning: Turn 2 correctly identifies all ANC models under £100 from the initial list: Sony WH-CH720N (both colors) at £69.99, Belkin SoundForm Isolate at £49.99, and Sony WH-CH735N at £99.99. All have ANC and are priced at or below £100.

[PASS] **Identifies the model with the longest battery duration**

Reasoning: Turn 2 clearly identifies the Sony WH-CH735N with 'Up to 75 hours, or 50 hours with noise cancelling on' as having the longest battery life, and explicitly recommends it as the 'longest battery life' option in the summary.

Turn 3

Customer Query:

Is the £30 extra for the Sony WH-CH735N worth it just for the longer battery life, or does it have better sound quality or ANC performance compared to the CH720N?

Trevor AI Response:

Based on the product details and Q&A I have, the main clear upgrade on the WH-CH735N is battery life.

Feature	Sony WH-CH720N	Sony WH-CH735N
Price	£69.99	£99.99
ANC	Active noise cancellation	Active noise cancellation
Battery life	Up to 35 hours	Up to 75 hours, or 50 hours with noise cancelling on
Sound quality evidence	Clear, reliable call quality; natural vocals and balanced sound	No specific comparative detail available
ANC performance evidence	Good ANC; works even on wired connection	"Sony's best CH-series noise-cancelling yet"

In summary:

Choose the WH-CH720N if you want good ANC for less money. The product details and Q&A support that it has active noise cancelling and clear, balanced sound.

Choose the WH-CH735N if you want much longer battery life and Sony's own product wording about stronger CH-series noise cancelling.

I can't confirm a sound quality leap from the information available, so if you're deciding purely on sound, the safer view is that the CH735N's extra £30 is mainly paying for the battery and upgraded CH-series ANC claim, not a clearly documented jump in audio quality.

If you'd like, I can turn that into a simple "best value vs best battery" recommendation.

Customer Query:

What's the warranty period on both Sony models, and how quickly could I get the CH720N delivered if I ordered today?

Trevor AI Response:

Both Sony models show a manufacturer's 1 year guarantee in the product details I have.
Sony WH-CH720N ? 1 year
Sony WH-CH735N ? 1 year
For the CH720N delivery, the product details say:
Home delivery from £4.95
Click and collect available
I can't confirm how quickly it would arrive today from the information available to me, as delivery timing depends on postcode and the live checkout details.
